County Official Paper.

TOWN AND COUNTY MATTERS.

INCORPORATION OF WOODLAND.—Professor Freeman, of Hesperian College, drew up and circulated this week a petition for the incorporation of the town. He was eminently successful in this laudable object, and obtained a decided majority of the citizens. The petition will be presented to the Board of Supervisors in August, and Woodland will become an incorporated town. Settling aside the railroad, this is the most important step taken for the prosperity of the place. The sanitary regulations that will be adopted will preserve the health of the place and lighten the expenditures of citizens for medicines and doctor's fees, by an amount sufficient to defray municipal expenses; the improvement of the streets will add to the value of property, and property will be rendered more secure from fire; order and quiet will be maintained, and the morals of the town improved—all of which are great inducements to families fixing their residence among its men.

In a few weeks, the population of the town will have an addition of three hundred and twenty students, male and female, made to it, and by incorporating the town, the school will be placed on a permanent basis, and the past two weeks, which would be the only time during the session of the school, the experience of other towns that have incorporated, have established the fact that municipal government can be made self-sustaining, or nearly so. In every sense its advantages are great, and in a few months we can boast of as neat and orderly a town as dots the Sacramento Valley. The boundaries of the town contain two miles and a quarter, as follows: By Bearman's on the north, Mrs. Howard on the west, Mr. Gibson, on the south, and Hopkins on the east.

INDEMNITIES.—The harvest season and the railroad bring many unfortunate specimens of humanity to town on the Sabbath who indulge to excess in intoxicating drinks. On Sunday last quite a number of this class came among us, and after getting their "kegs full," made themselves conspicuous. The "boys" sometimes amuse themselves by turning the horses loose who become "glorious." They selected for the subject of their sport on Sunday afternoon a plucky Irishman. He "made for" the man who was washing him down, chased him into the Platters' Hotel, but was checked in the pursuit by a drawn knife. Chairs and missiles were hurled, and a large crowd collected. After a rough-and-tumble with Ned Boyle the Irishman was taken to jail. Although drunkenness is a bad habit and admits of no defence, yet men should reflect that very many who become victims of intemperance are overtaken by misfortune and cruel circumstances, and resort to strong drinks as a temporary respite from torturing reflections. Many of them are far away from home, from friends and from friends, and perhaps have been denied that education and discipline which teaches self-control. Humanity should teach us to treat such men with compassion, and lessen, instead of add to, their sufferings. Police expenses—

Teach me to feel another's woe,
To hide the faults I see,
That mercy to others show,
And mercy free to me—
And, we think, those who are full vessels themselves, and not free from infirmities, may draw a needed lesson therefrom.

HOTELS IN WOODLAND.—There are three hotels in this place, and since the completion of the railroad thus far, they have had more customers than they could accommodate. On Sunday one hundred and eighty persons dined at the Hunter House, and the other two had as many as they could accommodate. As a general thing all can be fed, but cannot always be furnished with beds. This increase of travel to our town creates a necessity for more hotel accommodations, and unless the proprietors of the three already in existence, make additions to their buildings, a new hotel will be started. Whenever a necessity exists for the enlargement of any particular branch of business, capital can always be found to do it—therefore, if the gentlemanly proprietors now running hotels in Woodland, would not seek another hotel go up in the town, they must add more rooms to their buildings.

DAILY MAIL.—We have heard nothing of late of that petition to the Post-Office Department for a daily mail, which we gave our friend Frost credit for circulating. If there be the least enterprise or pride in our citizens this matter will not be permitted to sleep. We have conversed with the contractor, A. W. Tucker, on the subject, and find that to transport the mail every day from Sacramento requires considerable labor and some expense, and it would be unreasonable to expect him to incur all this without remuneration. For thirty dollars per month he is willing to give us a daily mail. So trifling an amount as this could be raised among our citizens without trouble or inconvenience. We hope some one will start a subscription for that purpose.

THE HARVEST.—From our ever faithful and attentive correspondent at Buckeye, in this county, we learn that the yield of wheat will be one-third less per acre than an average crop. He says that the grain is somewhat shrunken and that "cheat" is occasionally found among it. There is but little "rust," but "smut" is found to exist to some extent. He complains of the want of threshing machines in that neighborhood, and fears that farmers, from this cause, will not have their wheat ready for market before the rainy season sets in. Well, what "cannot be cured must be endured," but there is some consolation in knowing that there is every indication of a high price for wheat this season. The demand in Europe is continually increasing.

HESPERIAN COLLEGE.—The catalogue of this institution has been laid on our table. We learn from it that the first term of the present academic year begins on the 23d of August ensuing, and ends December 24th. The second term begins January 3d, 1890, and terminates May 6th, same year. On a former occasion we spoke of the merits of this excellent institution. It is conducted in the most exemplary manner, and everything pertaining to a finished education is imparted. The catalogue of Woodland during the months of the two sessions is the most beautiful in the State, and the completion of the railroad makes it easy and quick access. It is important that all students should be on hand on commencement day—and it is still more important that Hesperian College be sustained in a becoming manner.

ADDITION TO POPULATION.—Hardly a week passes but what additions are made to our population from the Atlantic. This week we have to chronicle the fact that Col. Flournoy, with his family, from the "Old Dominion," has come among us to locate. That name added lustre to the annals of Virginia, and we trust it will become as conspicuous in California. This family brought along with them a leaf of cured tobacco, which grew on the banks of James River, which can be seen in this office. The progress of Yolo county cannot be stayed. We have plenty of broad and fertile acres, which can be had at reasonable rates. In a very few years we can number our population by thousands multiplied.

DIGNITY OF THE COURT.—Judge Woods, this week, fined the principal witness in the case of Ferguson, for burglary, \$40 and costs for not appearing at the proper time—also the principal witness in the case of Casey, for assault with knife, \$40 for accepting a bribe of \$20 to not appear. Warrants were also issued for those who bribed him.

ORGANIZATION OF DEMOCRACY.

The Democrats of Davisville—all honor to them—have led off in the campaign by organizing a Democratic Club. This is the way to secure success. In politics, as well as in war, organization becomes necessary, and rarely is a triumph won without it. Can it be that Woodland, the seat of justice, the homes of the officers of the county, where all the money is paid and spent, will suffer the embryo town of Davisville to outstrip her in the coming contest for political supremacy? We press this matter home upon the candidates, as well as others interested, and ask them if they, too, will not organize a club? The gentlemanly secretary of the club at Davisville, Mr. Cliffe, has furnished us with the names of the officers, and the resolutions adopted. They are as follows:

Resolved, That we cordially endorse the doctrine enunciated in the platform adopted by the Democratic State Convention held in Sacramento, June 29th, 1889, and especially that portion which refers to the proposed fifteenth amendment to the constitution of the United States, and we pledge ourselves to use all honorable means for its defeat in this State.

Resolved, That, believing as we do, that the perpetuity of our form of Government depends upon the intelligence and honesty of the mass of the people, we therefore deprecate efforts being made by the Republican party to force an inferior and degraded race to participate in the elective franchise, whereby, if carried out, will tend to subvert our democratic principles, and prepare the way to establish a monarchy upon its ruins.

Resolved, That we heartily concur in the able made by our county committee, and will, in every sense, do our best to secure their election.

Resolved, That all persons feeling an interest in our common country and who are opposed to the radical measures of Congress, initiating the fifteenth amendment to the constitution of the United States, and who are opposed to the appointment of negroes to office, be cordially invited to join our club.

The officers of the club are: F. Foster, President; J. H. Murphy, Vice President; Thos. Gregory, Treasurer; J. T. Cliffe, Secretary.

A DOG'S DOINGS.—On Saturday evening last, on Second street, a dog flew out at a horse as he was being galloped by a boy, and was run over. The howl he set up frightened a couple of horses attached to a small wagon under the care of the driver, and the horses, in their fright, snapped the rope by which they were tied, and dashed off and down Main street, tearing the wagon to pieces, spilling oil cans, and otherwise injuring the owner to the amount of near a hundred dollars. If there had been children on the streets, as usual, their lives would have been endangered. If the town had been incorporated this would not have happened.

NEW FIRM.—C. S. Thomas and G. W. Hunt have entered into co-partnership for the purpose of buying and shipping grain. They are men of experience and business capacity, and have an abundance of means with which to establish an extensive trade. Their place of business, for the present, is in Dr. Ray's building, near Temple Hill.

NEW LUMBER YARD.—Peter Robinson has established himself in the lumber business in this place. At his lumber yard—south of Dr. Ray's residence, and near the railroad track—can be found building and fencing lumber of every description, also doors, windows, sashes, shingles, etc. Advertisements too late for this issue. Next week, Peter.

FESTIVAL.—We learn that the Ladies of Knight's Landing and vicinity will hold a festival in the new ware-rooms of C. F. Reed, in that town, on Wednesday evening, 21st instant. All are invited to attend; admittance 25 cents. The proceeds of the festival are to be applied toward furnishing the parsonage at that place.

WILLIAM DRESSBACH.—This gentleman, wholesale and retail grocer, and purchaser of grain, is doing a princely business of this character at Davisville. For liberality and enterprise he has a reputation co-extensive with the State. See his advertisement in another column.

COUNTY COURT.—Ferguson, for burglary—convicted—one year in State prison. Steward's case set for August 23d. Casey, for assault with knife—fined \$50. Powers, for shooting—change of venue denied—continued next term.

WATERMELON.—Thanks, warm, hearty and grateful, to our friend Dale, near Cacheville, for a huge and deliciously-flavored melon. Dale is the boy whose industry surrounds himself with the good things of life.

THANKS.—For two bottles of White & McCallen's delicious summer beverage. Go to Bentley & Simpson's, straight away, and get a bottle, if you would be pleasant all day long.

SPECIAL NOTICES.

THE TRUE MEDICAL DOCTRINE.—Nature, when struggling with disease, indicates unmistakably the kind of assistance she requires. In case of nervous weakness and general debility, the feeble pulse, the lack-lustre eye, the emaciated frame, the flaccid muscles, the morbidly sluggish action, inform us as plainly as if each organ had a tongue, that a **medicated climate** is needed. It does not require the aid of a special form of new vigor, from an exhausted system. Every reader of these lines can comprehend it just as well as the graduate of a physicians' college. Let us this demand of enforced nature be neglected. Respond to it promptly by commencing a course of **Hosetter's Stomach Bitters**, a preparation uniting, in their highest excellence, the properties of a stimulant, an invigorant, and an alterative. Before three days have elapsed, from the taking of the first dose, a marked beneficial change will be manifest in the bodily and mental condition of the patient. The pulse will be stronger, and more regular, the eye will begin to lose its dull expression, the muscular and nervous systems to recover their tension, and the spirits to improve. Persevere, and complete reinvigoration of the depressed animal and mental powers is certain. In cases of dyspepsia and biliousness, the same salutary results will be obtained. The appetite will revive, the sallowness of the skin disappear, and all the distressing symptoms of the morbid state will be evaporated through the pores in milder weather, and therefore the Bitters are especially useful to the dyspeptic and bilious at this season.

BAKER & HAMILTON, STOP THAT COUGHING.

Some of you can't, and we pity you. You have tried every remedy but the ONE destined, by its intrinsic merit, to supersede all similar preparations. It is not surprising you should be reluctant to try something else after the many experiments you have made of truly compounds foisted on the public as a certain cure; but

Newell's Pulmonary Syrup
is really the VERY BEST remedy ever compounded for the cure of coughs, colds, sore throat, Asthma, Whooping-cough, Bronchitis and Consumption. Thousands of people in California and Oregon have been already benefited by the surprising curative powers of

Newell's Pulmonary Syrup,
and with one second give it their unqualified approbation. We now address ourselves to all who are unacquainted with this, the greatest Panacea of the age, for the healing of all diseases of the Throat and Lungs, assuring you that

Newell's Pulmonary Syrup
has cured thousands, and it will cure YOU if you try it.
This invaluable medicine is pleasant to the taste, soothing, healing and strengthening in its effects; entirely free from all poisonous or deleterious drugs, and perfectly harmless under all circumstances.
Certificates from many prominent citizens of San Francisco accompany every bottle of

Newell's Pulmonary Syrup.

ESSENCE OF
JAMAICA GINGER!
This valuable preparation, containing in a highly concentrated form all the properties of Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs.
As a tonic, it will be found invaluable to all persons recovering from debility, whether produced by fever, or otherwise; for while it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.
It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.
It gives immediate relief to Nausea, caused by riding in a railroad car, or by sea-sickness, or other causes.
It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.
